

Please do not implement any proposal that would lessen Indiana's Telephone Privacy law protections! My husband and I had been bombarded with unwanted phone calls at all hours of the day and night seven days a week until we signed up on Indiana's "no call" list July 1, 2002. Since then we receive only calls that are wanted, from family and friends, church, school, etc. We still can't believe that our lives aren't constantly being interrupted with telemarketers phoning to sell credit cards, phone service, vacations, food, other products. It is so wonderful! Before July 1 we would receive anywhere from two to six calls nightly from telemarketers. They called constantly--during the dinner hour, after bedtime, on Sundays! I couldn't even come home for lunch without the phone ringing and finding a telemarketer on the other end! In short, we love Indiana's protection from telemarketing calls and ask you to please not put us in the position of again having our lives interrupted with a barrage of unwanted phone calls! Please do not interfere with Indiana's Telephone Privacy Law!
